- Sales Ledger
- Lemonade Stand Banner

## **What You'll Need**

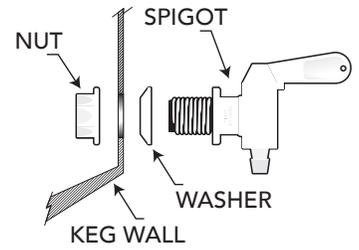

- 2 Gallons of Water
- Whisk or Stirring Spoon
- Outdoor Table

# INSTRUCTIONS

for assembling the keg  
and mixing lemonade

## STEP 1: Assemble the Spigot

1. Place washer on the spigot with the beveled (narrower) edge facing the spigot threads. Then insert spigot and washer into keg. **Note that washer is outside of the keg.** Then screw on the nut inside the keg with the wide flat side against the inside keg wall. Gently hand tighten but **be careful to not over tighten.**
2. Test the keg for leaks by filling it completely with water and letting it sit for 15-30 minutes.

## STEP 2: Add Lemonade Mix

1. Pour all 5 packets of lemonade mix into the keg

## STEP 3: Add Water & Stir

1. Add 2 gallons of water by filling up to the second line.
2. Stir with spoon or whisk
